Article 2
Mission, goals and employment prospects

The course is focused on training and retraining of workers in technical offices employed in public works. Based on as stipulated by the European Parliament in procurement (European Union Public Procurement Directive, EUPPD) which, from 2016, sets out the obligation of the use of BIM software, in the design activities for public works financed by the EU, there will be an excursus on the law, data processing, responsibilities followed by basic training on the use of some applications. Some theoretical fundamentals and practical applications, will allow users to open and manage files and projects drafted in the field of BIM integrated design. We will discuss some widely used software and functionality as well as the fields of application. The basic training will provide a clear idea of the possible prospects for improvement in the management of procurement, design validation and interference control, as well as work progress. Particular importance is given to project work and homework on case studies.

The job opportunities opened by the skills acquired as a result of the lessons of this specialization course are varied and abundant: construction companies, engineering companies, general contractors, public bodies, etc.

The programme will be delivered remotely online.

Article 3
Teaching content and organisation

The Specializing Masters will start in July 2023 and will end in November 2023.

The Postgraduate Course will be held by professors of the Polytechnic, external professionals and experts in the sector. All students will have a personal account that will allow access to the online platform. The lessons, in ASYNCHRONOUS mode, are videotaped and will remain available to the student until the end of the course. Several lessons and their material could be in English.

Article 4
Admission requirements

The course is open to candidates who have already joined or intend to join technical offices of public bodies, companies that operate on behalf of public entities or companies that manage building works and infrastructure projects and candidates who are interested in specialization. The course is reserved for candidates with a Bachelor. Foreign candidates qualification equivalents will be considered in their respective university systems.

The Commission will be responsible for the selection process.
It is possible to enrol concurrently on a Postgraduate Programme and another Postgraduate Programme or a Laurea (equivalent to Bachelor of Science) programme or a Laurea Specialistica/Magistrale (equivalent to Master of Science) programme or a Ph.D. Programme. If the student is enrolled concurrently on two Postgraduate Programmes in addition to another study programme, he/she must withdraw from one of the programmes.

**Article 5**
**Formal obligations**

The application for admission must be sent by 10 July 2023.

The admission application must state the following "I authorise this University, under EU Regulation no. 2016/679 on data protection, to process personal data only for purposes related to the Master’s admission, enrolment and management, and agree to the disclosure of my personal information to third parties, particularly:

- public and private entities interested in possible recruitment;
- to academic programme backers; Politecnico Treasurer for services related to tuition fees;
- to entities managing unsecured loans, housing, flexible employment contracts, cultural, recreational and/or sports activities.
- I authorise the use of the data for statistical purposes in respect of the procedures and authorisations required by the cited regulation.

The extended information on data processing and data subject rights is available on the website [www.polimi.it/privacy](http://www.polimi.it/privacy).

The application form can be found on the website [http://www.masterpesenti.polimi.it](http://www.masterpesenti.polimi.it) or by contacting the secretary of the Fratelli Pesenti School – Tel. +39 02.2399.4341/4381 email: franchi@cise-polimi.it

The following documentation must be sent to:

**Consorzio CIS-E Politecnico di Milano**
Piazza Leonardo Da Vinci, 32
20133 MILAN (MI)
Telephone: +39 02.2399.4341/4381

  - copy of the identity document
  - copy of the Diploma Supplement or photocopy of the degree diploma

* Italian/EU citizens with qualification gained abroad
  - copy of the identity document
  - copy of the academic qualification obtained both in original language and translated
  - copy of the certificate (both in original language and translated) showing the marks given in the individual exams or Diploma Supplement ([during enrolment, the certificate of equivalence issued by the relevant area's Italian Representative abroad or certificate issued by the Enic/Naric Centres must be submitted](http://www.polimi.it/privacy))

Under Art. 75 of Italian Presidential Decree 445/2000, if the Administration, after carrying out suitable checks, finds that the content of the declarations made by the applicant is untrue, the declarant forfeits any benefits obtained by the measure issued based on the untrue declaration.
* Non-EU citizens who graduated abroad

Non-EU foreign citizens must submit the following to the Managing Authority:

- **copy of the degree** in the original language and its translation into Italian/English/French or Spanish
- **copy of the transcripts** with the list of exams in the original language and their translation into Italian/English/French or Spanish or Diploma Supplement
- **copy of a valid passport**

At least 30 days before the closing date of the registration period as indicated in this article.

The Managing Authority shall send the documentation listed above for the evaluation of qualifications, to participate in the Politecnico di Milano's Specialising Masters, Masters and Lifelong Learning Service by the closing date of this call for applications, under the MIUR/MAE note "Procedures for entry, stay and enrolment of students applying for visas in higher education programmes in Italy for the 2022/23" academic year.

Following acceptance by the University, and only after confirming to the Managing Authority their participation on the Programme by the set methods, students must register on the Ministerial portal [https://www.universitaly.it](https://www.universitaly.it) informing the Managing Authority that the registration has been completed in order for the application to be sent to the Representative responsible for issuing the entry visa.

**ENROLMENT METHOD:**

Students admitted to the Master’s Programme must create access credentials to Politecnico di Milano's online services on the website [www.polimi.it](http://www.polimi.it). They must then enter their details and create a **person code**, attaching a valid identity document (passport for non-EU citizens), and communicate their person code to the Master’s Managing Authority. Students already registered will have to update their personal details, if they are obsolete.

**Portal access credentials must be retained as they will be required to access all of Politecnico di Milano's services.** Lost access credentials may be autonomously restored or obtained through an OTRS ticket.

Politecnico creates a temporary student identification number to allow the student to pay the enrolment fee via online services.

The achievement of an Italian degree can be self-certified by completing the appropriate form provided by the Managing Authority. A degree obtained abroad must be documented by presenting a **declaration of value (DOV)** issued by the Italian Representative abroad (Italian Embassy or Consulate) on letterhead complete with its original stamp; or a **certificate issued by the Enic/Naric Centres**.

In addition to the above documentation, **non-EU citizens must upload a copy of a valid entrance and residence permit on their online services personal data record.**

**ART. 6**

**Qualifications and awards**

**CERTIFICATION AWARDED**

Students admitted to the Master's final examination will pay the fee via the online services of Politecnico di Milano in order to be able to take the exam.

At the end of the Programme, upon completion of the course and after passing the final test, the student will be awarded a Post-graduate certificate in “Building Information Modeling in Technical Offices: Modeling and Management of Projects”.
STUDENTS’ OBLIGATIONS
Attendance of at least 80% for the activities foreseen by the Postgraduate Programme is compulsory. Withdrawal from the programme must be expressed in writing. The training period cannot be suspended for any reason.

EXAMINATION PROCESS
There shall be a final exam.
